

FOR COUPLES PLANNING THEIR WEDDING

findmyseat[™]
by smokedesign

Your guests find their seat in seconds.

A digital seating plan for your wedding. Guests scan a QR code, type their name and see their table, side and floor, and exactly where it is on a map of your venue.

No app

Any phone

Ready in 48 hours

From £99

No more crowd at the seating board

At a big wedding, finding their seat is the first thing every guest does. Make it the easiest part of the day, for them and for you.

A printed board on its own

- ✗ Hundreds of tiny names on one sign
- ✗ Everyone arrives at once and queues at the board
- ✗ Grandparents and older relatives struggle to read it
- ✗ Guests know "table 28" but not where it is
- ✗ One late swap and the printed plan is already wrong
- ✗ Confusion over sides, sections and the balcony

With Find My Seat

- ✓ Guests search on their own phone, with no queue
- ✓ Large, clear text that anyone can read
- ✓ Spelling mistakes are fine: "Hanna Jons" finds Hana Jones
- ✓ Their table lights up on a map of your venue
- ✓ Late changes go live instantly and the QR code never changes
- ✓ Balcony guests are told to go upstairs

"Your guests walk straight to their seats, and you get to enjoy your entrance instead of directing traffic."

PERFECT FOR

Big weddings

200, 400 or 600+ guests, where one board can't cope

Separate sides

bride's and groom's sides, family and friends sections

Balconies & multiple halls

guests are sent to the right floor or room

Your style

your colours, your fonts and your names on the page

Scan. Search. Find your seat.

Your wedding gets its own personalised page in your colours. Guests open it from a QR code on your welcome sign, table plan or invitation, or from a link you send on WhatsApp.

1

Scan

The page opens straight away on any iPhone or Android. No app and no login.

2

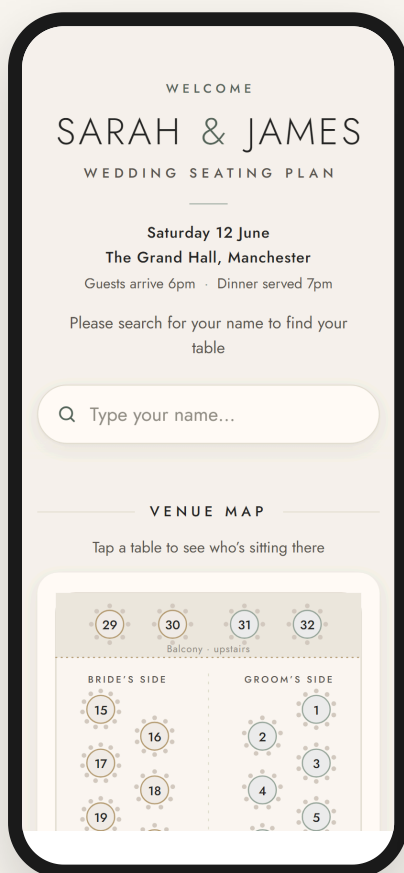

Search

Guests type any part of their name and see their table, side and floor.

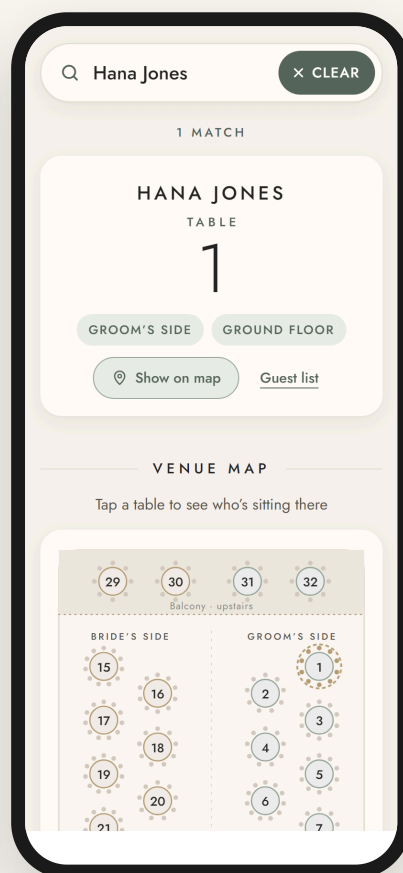

3

Find

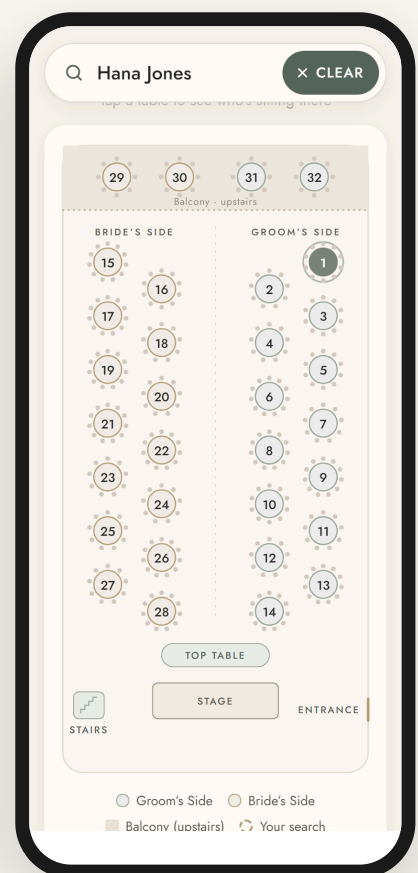

"Show on map" highlights their table on your venue's layout.

HOW IT WORKS

We do the set-up. You just approve it.

No technology for you to learn. Book online, send us your list and we take care of the rest.

- 1 Choose your package and book.** Pay securely online in a couple of minutes — card, Apple Pay or Google Pay.
- 2 Send your guest list.** Any format: a spreadsheet, a typed list or a photo of your table plan. We check every name for duplicates and missing tables.
- 3 We build your page.** In your colours and fonts, with your venue's map, sides and floors. Usually ready within 48 hours.
- 4 You check and approve it.** You get a private preview link. Search names, check every table, then tap "Approve" or send corrections.
- 5 Share your QR code.** Print it on your welcome sign, table plan or invitations, or send the link to guests on WhatsApp.
- 6 On the day.** Guests find their own seats, and late changes appear instantly.
- 7 Afterwards.** The page closes automatically and guest names are deleted.

What we need from you

- ✓ Your guest list with table numbers
- ✓ Your date, venue and colours
- ✓ The venue's floor plan, if you have it (we can usually get it)

Good to know

- ✓ Changes are fine right up to the day
- ✓ The QR code never changes, so signs printed early still work
- ✓ Optional PIN if you'd like extra privacy

WELCOME

Find your seat

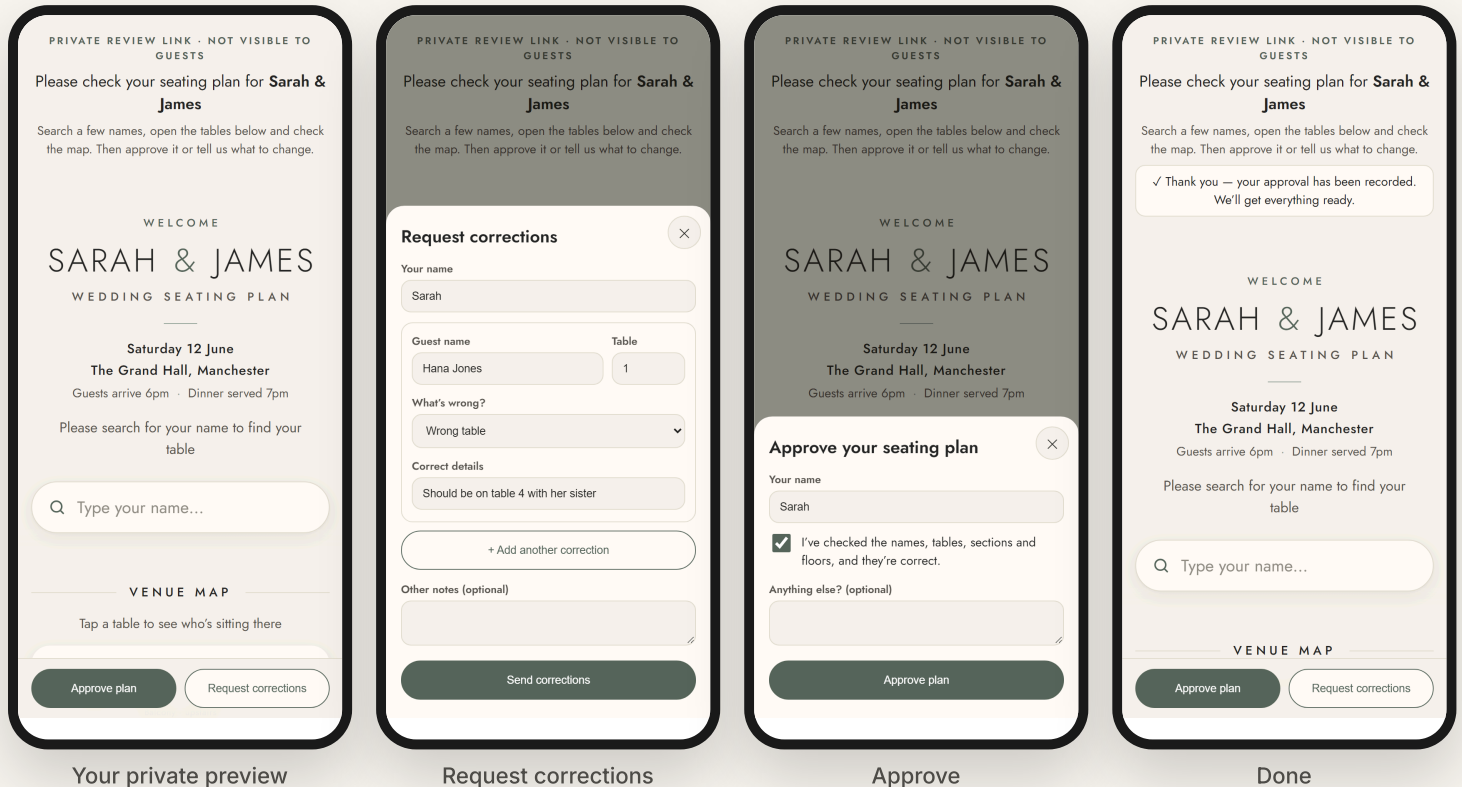

Scan · type your name · follow the map

Example welcome sign (scan to try the demo)

You see it, and approve it, first

Before any guest sees your seating plan, you get a private preview link to check every name and table.

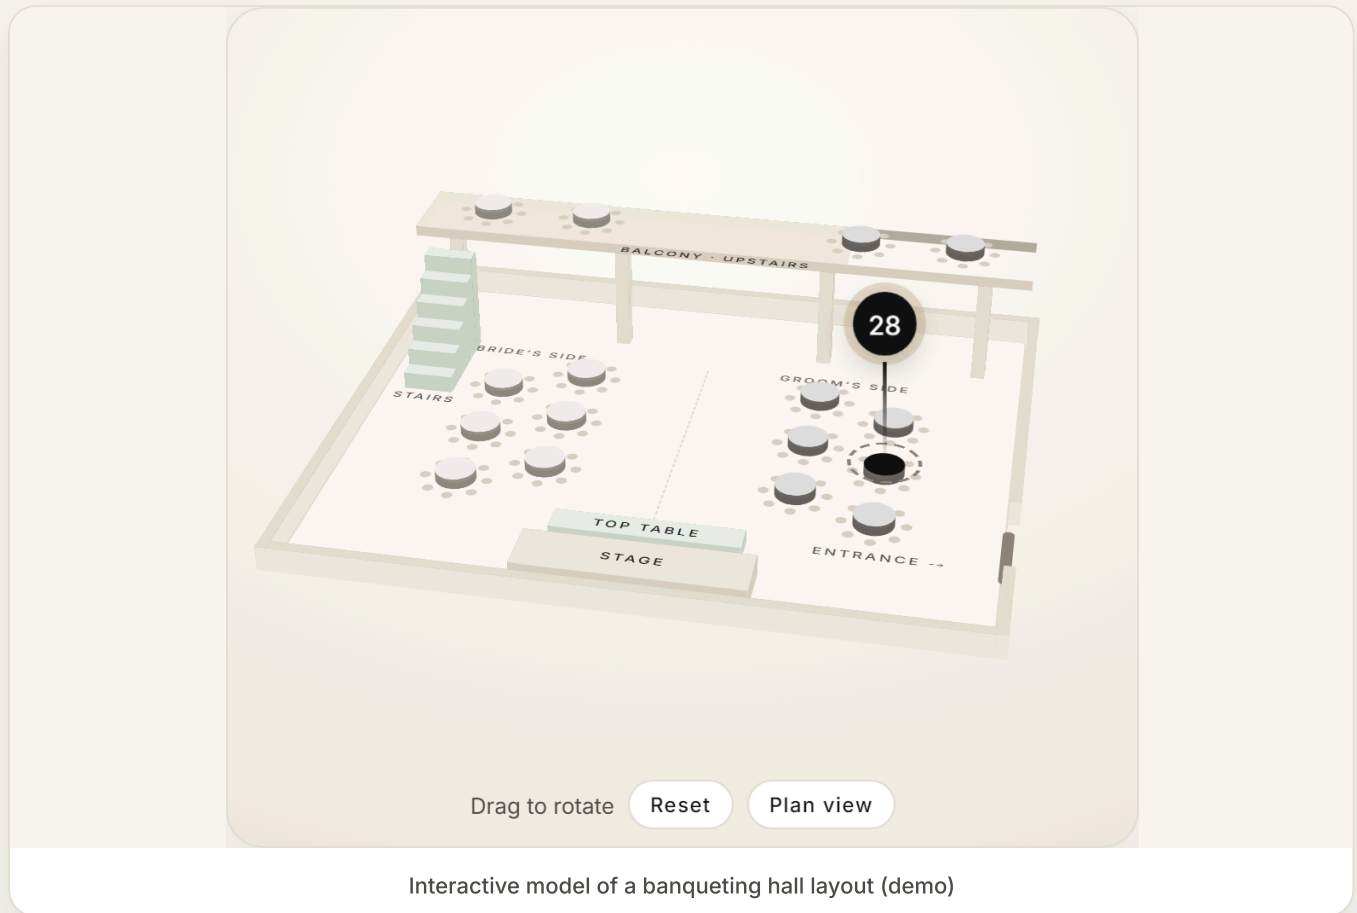

- ✓ See the plan exactly as your guests will
- ✓ List corrections guest by guest: spelling, wrong table, missing or remove
- ✓ We fix them and you approve the final version

- ✓ Your approval is saved with the date, so there are no surprises on the day
- ✓ Last-minute swaps? Just send them over
- ✓ Nothing is visible to guests until you're happy

YOUR VENUE, YOUR STYLE

A map of your venue, in your colours

We draw your venue from its floor plan, with sides, sections, the stage, top table, entrances, stairs and balcony, so guests walk straight to their seat.

- ✓ **Your colours and fonts** to match your invitations and décor
- ✓ **Your wording:** bride's side and groom's side, or any names you like
- ✓ **Balcony and upstairs tables** come with clear directions

- ✓ **A WhatsApp preview with your names** when you share the link
- ✓ **Works on venue Wi-Fi or mobile data**, as the page is very light
- ✓ **Keep your printed board** for photos; guests who can't see it search instead

PACKAGES

Simple, one-off prices

One price for your wedding, paid securely online when you book. No subscription.

MOST POPULAR

- ✓ Balcony and upstairs directions

Bespoke

£199

Large weddings and bespoke layouts.

- ✓ Everything in Signature
- ✓ 500+ guests
- ✓ Map traced from the floor plan
- ✓ Changes up to the day, optional PIN

Do our guests need an app?

No. They scan the QR code or tap the link and the page opens, on any iPhone or Android phone.

How quickly can it be ready?

Usually within 48 hours of receiving your guest list. Rush set-ups are possible, just ask.

Can names change after it's live?

Yes, right up to the day. Changes appear instantly and the QR code stays the same.

What if we cancel?

You can cancel within 14 days of booking for a refund, and we'll move your plan free if your date changes. Full terms at www.findmyseat.io/terms.

What about privacy?

We store only guest names and table numbers. The page is hidden from Google, can be PIN-protected, and names are deleted after the wedding.

Is it only for weddings?

No. It works for engagement parties, walimas, mehndis, charity dinners and any seated event.

NEXT STEPS

Let's get your seating plan ready

Book and pay securely online in a couple of minutes, then send your list whenever it's ready.

Book your seat finder

www.findmyseat.io

Try the live demo

Search "Hana Jones", then tap
"Show on map"

Ask us anything

WhatsApp

THREE SIMPLE STEPS

1

Book & send your list

Any format is fine. We check every name and table for you.

2

Approve your preview

Check everything on your private link, then tap "Approve".

3

Share your QR code

On your welcome sign, table plan or invitations. Guests do the rest.

Search your name. Find your table. See exactly where to go.
